**Wednesday, January 25, 2006  
4-6 pm**

Skykomish Community Center  
208 Railroad Avenue, Skykomish

**Government Agencies**

**Thursday, January 26, 2006  
1-3 pm**

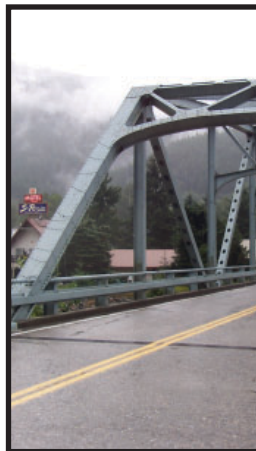

Ecology NW Regional Office  
3190 160th Avenue SE, Bellevue  
Parking in Ecology Overflow Lot  
(First drive on the left on 160th Avenue SE)

Sponsored by Washington State Department of Ecology and BNSF Railway Company

At each meeting you will have an opportunity to review the preliminary draft Engineering Design Report for cleanup of the Levee Zone. These meetings will also be part of a scoping process to develop an Environmental Impact Statement (EIS) for the cleanup work. Scoping meetings give citizens, agencies, and tribes an opportunity to comment on the issues being studied in the EIS, as well as provide comments on mitigation measures and other aspects of the project. You can also submit comments in writing until February 3, 2006.

The information received in this scoping for the EIS and early design review will be used to complete the Engineering Design Report and to develop a draft EIS. You will have another opportunity to comment on the completed Engineering Design Report, draft EIS, and other documents during a public comment period later this spring. Cleanup of the Levee Zone will begin in June 2006.

**You may access the early Engineering Design Report in the Skykomish Library, Skykomish Town Hall and other information repositories, and on Ecology's website at [www.ecy.wa.gov/programs/tcp/sites/bnsf\\_sky/bnsf\\_sky.html](http://www.ecy.wa.gov/programs/tcp/sites/bnsf_sky/bnsf_sky.html).**
